DIMENSIONS OF RIGHT-WING EXTREMISM IN EUROPE

A NETWORK CONFERENCE

13.02.-15.02.2024, ZIF BIELEFELD (GERMANY)

Dear colleague,

on short notice, but with even more pleasure and interest, we invite you to a conference on right-wing extremism research in Bielefeld. We want to and perhaps we must talk about current phenomena, data, methods, and perspectives on right-wing extremism. Where do we stand? Where are we going?

To this end, we invite selected experts from Europe who can network at the special location of the Centre for Interdisciplinary Research in Bielefeld.

Research on the far right has increased in quality and quantity over the last years. However, international collaboration and transnational research are still rare cases. The upcoming conference in mid-February in Bielefeld intends to bring together researchers from Norway and Germany in particular, but also some further scholars from other countries. The conference is organized as a joint project by C-REX (Oslo), ConflictA/Wi-REX (Bielefeld), FORENA (Düsseldorf), and REXKLIMA (TU Dresden) and we aim to learn about current, relevant and innovative research, to improve and perpetuate the exchange of information, and to exchange ideas about possible joint research projects. The conference is organized around thematically focused panels consisting of short presentations of 10-12 minutes; this then provides the basis for possible further discussions. We will also save time for networking, cooperation, and further agreements. The conference is free of charge.

We advise to book a hotel room as soon as possible.

With pleasure, the conference team
Anders, Andreas, Fabian, Hannah, Manès & Tore
